LOGIN AND ACCOUNT CREATION

LOGGING IN

Each journal’s ScholarOne Manuscripts site has a unique Web address (URL). Typically, you are given the address in an email sent by the journal. If the address is hyperlinked, select the link within the email, or copy and paste into the browser. The journal’s Log In page is displayed.

Access to the journal site may be provided in two ways:

1. The journal may create your account and email to you instructions on how to log in and set your User ID and password.

2. Some journals allow their users to create their own accounts. If yours does, there will be a Create Account link on the top of the page, or you can use the Create Account just below the Log In. Follow the 3-step process for creating your account.

Journal-required fields are denoted by a red asterisk.

Note: Your User ID or Password cannot contain any spaces and your password must be at least 8 characters in length (the 8 characters must contain two or more numbers).
ORCID ACCOUNT CREATION AND VALIDATION

During account creation, you may be given the option to associate an ORCID iD with your account by either registering for a new ORCID iD or associating an existing ORCID iD. Each of these options will be presented to you as links in the first step of the account creation process.

When you select one of these options to associate an ORCID iD with your account, a new browser window will open and special registration page on the ORCID website allowing the user to enter your existing ORCID credentials, link an existing ORCID iD, or register for a new ORCID iD.
Once you have validated an ORCID iD using one of the options, you will be asked to either authorize or deny the journal access to your ‘limited’ data.

If you click **Authorize**, you will be redirected back to your journal’s ScholarOne site with a validated ORCID iD.
ORCID LOG IN

The journal site may be configured to use ORCID Login. Select the Log In with ORCID iD button at the bottom of the Log In box.

You will then log in to ORCID ID, or register an ORCID account.

If the you have used this login process before or have already linked your ORCID iD to your ScholarOne profile, you will automatically be logged in to the ScholarOne site.

If this is their first time linking your ORCID and ScholarOne accounts together, you will be asked to authorize the publisher or journal to get their ORCID iD and to read limited-access information such as their name and address. Reading limited-access information will make it easier for new users that do not have a ScholarOne account to pre-fill their profile information when creating an account.
Next, you will link your ORCID account to the ScholarOne site. You will see the option of creating a new account or logging in with your existing site credentials.

If you already have an account on the ScholarOne site, you will only need to provide your ScholarOne login credentials once. Afterwards, you can use either the ScholarOne or ORCID credentials to log in to the participating site.
LOGGING OUT

You can log out of ScholarOne Manuscripts at any time by selecting Log Out at the top right corner of the page. You will be returned to the Log In page.

FORGOT YOUR PASSWORD?

If you know you have an account but have forgotten your password, use the Reset Password link. This will open a new window for you to type in your email address and click Send Reset Link. The system will email you a link to reset your password. Please be sure to check your spam folder as our email is sometimes treated as spam.

HELP DOCUMENTATION

LANGUAGE TOGGLE

Language toggle allows you to switch the display from the default language of English to another language. If configured for your site, you will find the language toggle located on the header at the top of the screen. Current languages available are French, Chinese and Japanese.

Note: All uploaded documents and end-user supplied text will not toggle and will be displayed in the language entered by the user.

INSTRUCTIONS AND FORMS

Select Instructions and Forms on the header to access journal-specific information regarding submitting your manuscript. It is very important that you follow the instructions provided by the journal.

   - **Running Head**: If present, enter a short title.
   - **Abstract**: Enter the abstract.

2. Click **Save and Continue**.
STEP 2 – FILE UPLOAD

In this step you will upload all of your manuscript files.

1. In the File Upload section, click the Select File 1 button. Browse for your main document file.

2. If needed, use the Select File 2 and additional buttons to select additional files. Choose an appropriate file designation from the drop down list.

ZIP FILES AND LATEX DOCUMENTS

If configured for your journal, you can upload zip files, using any of the upload buttons.

Each file that is uploaded will be unpacked and displayed in the list so you can provide the proper designation for each item.
For TeX/LaTeX submissions, the package contents will be unpacked, parsed, and processed to determine the identity of the LaTeX content files. The files can then be assigned to their file designation. Be sure that the very first file presented in your file listing is the main LaTeX file.
STEP 3 – ATTRIBUTES

Attributes or keywords are often required for manuscript submission. Some journals have a list of keywords for you to choose from, others allow authors to enter their own keywords, and some sites allow for both options.

      - Begin typing in the Keyword field and Type-Ahead Search will show any existing keywords matching your search term.

• Click the **Add** button.
2. Click **Save and Continue**.

- Click the **Add** button.

SUBMISSIONS USING OVERLEAF

Overleaf is a collaborative writing and publishing platform, which makes the process of writing, editing and publishing scientific documents quicker and easier. Your journal may have chosen to integrate Overleaf with ScholarOne Manuscripts™.

The Overleaf integration will allow you include files created with Overleaf directly in your submission. You will follow the same steps as described in earlier sections of this guide to complete all other required submission information.

CREATING AN OVERLEAF SUBMISSION

There are two ways to begin an Overleaf submission. You may find a link to Overleaf directly from the Journal’s web site, or you may select connect to Overleaf from ScholarOne Manuscripts™ Author Dashboard.

If you need to edit your work, you can use the convenient **Edit on Overleaf.com** link in the Actions column to go directly into your project on Overleaf and start editing. When edits are complete, simply use the **Next Step: Submit to Journal** link again to import and overwrite the files in **ScholarOne Manuscripts**, keeping them in sync and up-to-date.

**OVERLEAF FILE UPLOAD**

If an Author or Admin removes the Overleaf files, the Author *(or OverLeaf account holder)* has two ways to get the files back into the submission on ScholarOne:

1. The first method is by clicking on one of two links that will take them directly into the corresponding project on Overleaf.
a. One of these links will appear underneath the Files table when all Overleaf files have been removed.

b. Link will appear as a “Tip” in the Overleaf file upload section.

2. The new Overleaf file upload section will appear when there are or have been files associated with Overleaf in the submission. While going to the project on Overleaf.com directly will ensure synchronicity between platforms, this section offers an alternative by allowing Authors to upload Overleaf files that are stored on their computer. Uploading them in this section ensures the Overleaf files are processed properly.
OPEN ACCESS SUBMISSIONS

The journal you are submitting to may have a listing for fees associated with certain types of submissions that will be charged for Open Access.

For journals where all manuscripts are published under Open Access, you may be asked to agree to Open Access publication.
Journals may give you the option of several publication methods. Select your publishing preference.
